Phone display

Main page

In this main website we would appear the 3D model of the blue whale and a little text of introduction of what you can find in this website.

History

This website shows the history of the whale and how the Mahon's citizens found the skeleton.

Portfolio / Mounting process

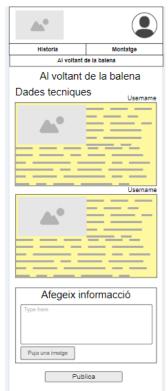

This section shows the process of how the students recreated the whale skeleton.

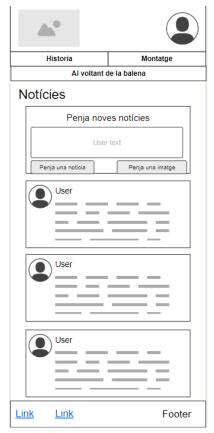

Al voltant de la balena

In this page we have two sides:

- The technical information about the whales

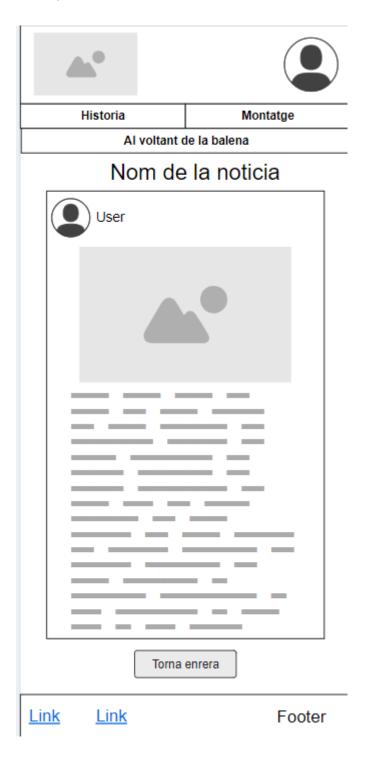

- The news related to the whale that the users can publish on the website

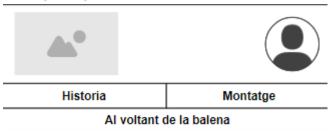

News Extended

When you click on a new, the new extend to show the full information

Login

The login page

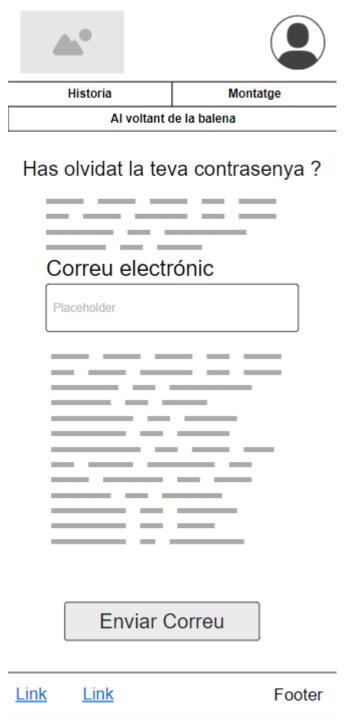

Submit

<u>Link</u> <u>Link</u> Footer

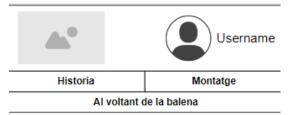

Forget the password page

if the user dont remember his password they would need to click in the section to forget the password to send an email to reset their password

Admin user configuration

When we login as an administrator we can access to this site

Pagina d'aministració

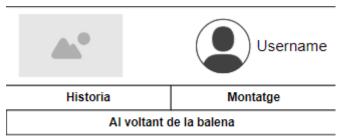

Canvi de contrasenya

Gestió d'usuaris

<u>Link</u> <u>Link</u> Footer

User configuration

The admin user can create the users

Gestió d'usuaris

Main page

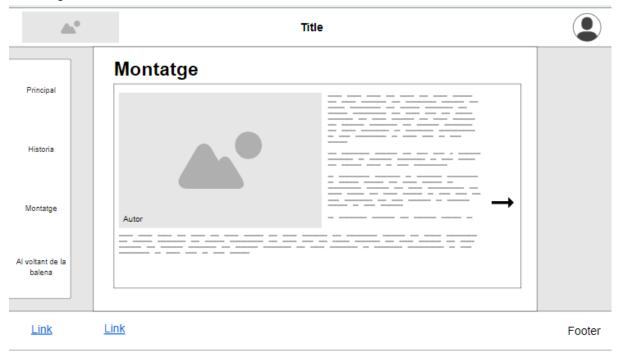

History

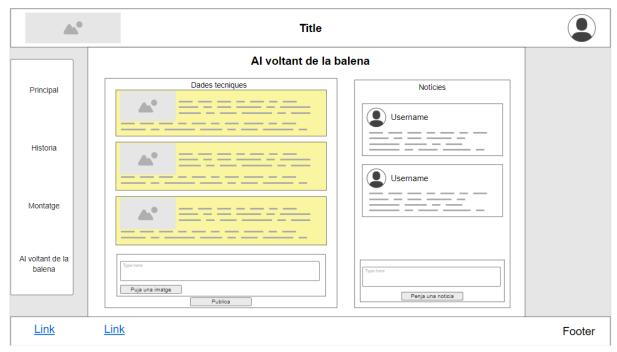

Portfolio / Mounting process

In this section I put two screenshots to show how I want to display the information, i would like to make it like pages, these pages you can click right and left to go back or keep checking forward.

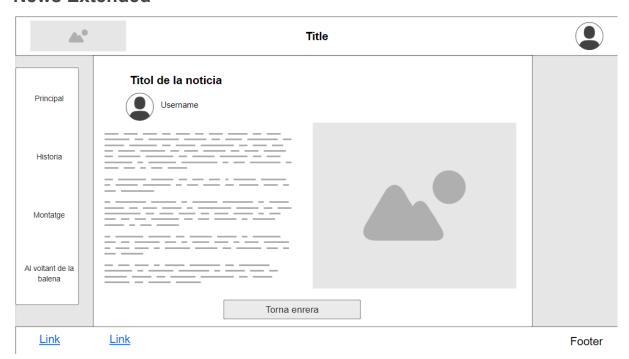

Al voltant de la balena

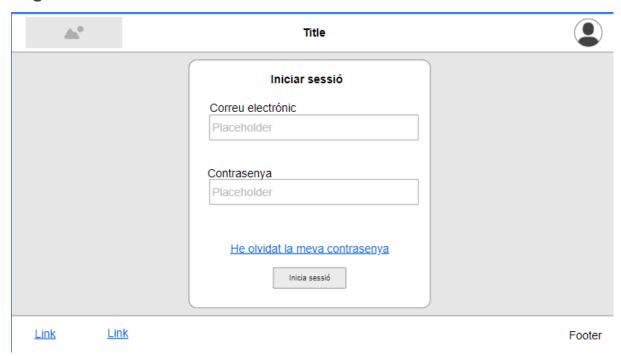

The technical data is difference in color because in the sketch is more visual
